Terrain Based Learning™ has been widely recognized as a game-changing revolution within the snow industry and has been adopted by some of the best ski schools in the country. Windham Mountain Resort is proud to offer the award-winning method, making learning to ski or snowboard easier and more fun. By using specifically shaped snow features to naturally control speed and body position, TBL removes the traditional fears and anxieties associated with the first time sliding on snow, allowing newcomers to focus purely on the fun!
